

Kritika Jain

Full-Stack Developer — MERN Stack — AI-Integrated Solutions

jainkritika2020@gmail.com — +91 8595473503

[GitHub](#) — [LinkedIn](#) — [Portfolio](#)

Professional Summary

Passionate Full Stack Developer specializing in the MERN stack (MongoDB, Express.js, React.js, Node.js) with hands-on experience building scalable, high-performance web applications. Skilled in integrating AI-powered features, optimizing user experience, and developing responsive, intuitive UI/UX designs. Driven by problem-solving, innovation, and continuous learning in modern web and AI technologies.

Technical Skills

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, RESTful APIs, MongoDB

Programming Languages: JavaScript, C++

Tools & Platforms: Git, GitHub, JWT, OAuth, Agile Methodology

Design Tools: Wireframing, Prototyping, Accessibility Standards

Projects

MIND CARE – AI-Powered Mental Health Companion [GitHub Repository](#)

- Developed an AI-powered mental health platform using the MERN stack with Gemini AI API integration.
- Implemented mood-based AI chat responses, personalized suggestions, and emotional support features.
- Built a secure daily habit and task tracker with user-specific data stored in MongoDB.
- Designed a privacy-focused, responsive UI optimized for both mobile and web platforms.

DINE-EASE – Restaurant Reservation Web App [GitHub Repository](#)

- Built a full-stack table reservation system using React.js, Node.js, Express.js, and MongoDB.
- Designed a responsive UI that improved booking speed by 40% through form validation and session-based authentication.
- Implemented real-time table availability tracking and an admin reservation management dashboard.
- Engineered RESTful APIs, improving backend scalability and data efficiency by 30%.

Internship Experience

Web Development Intern

Sep 2025 – Dec 2025

Dynamix Networks (Remote)

- Completed a 3-month internship focused on real-world web development practices.
- Delivered two technical assignments per month, consistently meeting deadlines with high-quality output.
- Strengthened core concepts of web development, including modular coding, debugging, and problem-solving.
- Demonstrated strong communication skills, self-management, and independent work in a remote environment.
- Gained practical exposure to industry workflows and professional development standards.

Education

Bachelor of Technology (B.Tech) – Electronics and Communication Engineering

Guru Gobind Singh Indraprastha University

2022 – 2026

Certifications

Full Stack Web Development – Udemy

2024

Covered MERN Stack, RESTful API Development, Responsive UI Design, and Deployment Practices

Highlights & Achievements

- Delivered 2+ full-stack projects integrating AI APIs and scalable backend architectures.
- Improved user engagement by up to 40% through UX-optimized designs.
- Collaborated on cross-functional projects using Agile workflows and Git-based version control.
- Actively exploring AI + Web integration for intelligent, user-centric applications.
